### HACK@BROOKES

#### Founder/Co-organizer (Dec 2014 – Present)

- Created and co-organized Oxford Brookes University's first official hackathon, which took place from Feb 12 to Feb 13 2016
- Nearly 100 attendees
- Very successful first hackathon

### WEARHACKS

#### UK Ambassador (May 2015 – May 2016)

- Working as an organizer for WearHacks's first London wearables hackathon

## PROGRAMMING COMPETITIONS

### Blackberry 10 GotGame Portathon

#### Grand Prize Winner

- Created and ported thirteen games for the Blackberry 10 platform
- Won a fully-funded trip to San Francisco, USA to attend Game Developers Conference 2013 along with two thousand dollars spending money
- Received one hundred dollars per game
- Received a Blackberry Playbook tablet and a Blackberry 10 Prototype device

### Blackberry 10 Android Portathon

#### Participant/Winner

- Created and ported twenty Android apps to the Blackberry 10 platform
- Received one hundred dollars per app
- Received a Blackberry 10 Prototype device

### Blackberry 10 Community Portathon

#### Participant/Winner

- Created and ported ten Android apps to the Blackberry 10 platform
- Received one hundred dollars per app

### Blackberry 10 All-Aboard Portathon

#### Participant/Winner

- Created and ported eighteen Android apps to the Blackberry 10 platform
- Received one hundred dollars per app
- Received a Blackberry 10 Prototype device

### Blackberry 10 Last Chance Portathon

#### Participant/Winner

- Created twenty apps for the Blackberry 10 platform using Blackberry App Generator
- Received one hundred dollars per app
- Received a Blackberry 10 Prototype device

### Google Code-In 2012

#### Participant

- Participated in Google Code-In

### I Unlock Joy

## **Participant**

- Participated in the IUnlockJoy Windows Phone app contest and created a Windows Phone app

## **PROJECTS**

### **WarnIndia**

#### **Creator**

- Created WarnIndia, an Android app that shows Indian citizens useful information about potential tsunamis, earthquakes and cyclones that are scheduled to take place and also issue early warnings
- Uses data from local Indian governments for faster access and more reliable data
- Available on Play Store

### **OneDroid**

#### **Creator**

- Created OneDroid, a custom ROM based on CyanogenMod for HTC One and Nexus 5
- Over 250,000 views on the HTC One version
- Over 100,000 downloads (collectively)
- Available on XDA-Developers

### **Android L Developer Preview for HTC One**

#### **Lead Developer**

- Ported the Android L Developer Preview (N5/N7) to the HTC One with some help from fellow developers
- Almost 300,000 views
- Featured on TechnoBuffalo and other popular Android websites
- Available on XDA-Developers

### **QuickCamera**

#### **Creator**

- Created QuickCamera, an Android app that replicates the flick-wrist-to-launch-the-camera gesture of the Moto X on other Android devices
- 10000+ downloads and 10000+ community members on Google+
- Featured on popular Android websites like Android Authority, LifeHacker and more
- Open source
- Available on Play Store (Beta testing)

### **PC Quick Commands**

#### **Creator**

- Created PC Quick Commands, an Android app that lets you send commands like Shutdown, Restart, Run app, and more to your Windows PC
- Almost 5000 downloads
- Featured on XDA-Developers
- Open source
- Available on Play Store

### **AppOps**

#### **Creator**

- Created an independent version of AppOps from AOSP source for Android 4.3+ devices
- Featured on XDA-Developers
- Open source

### **CustomDroid**

#### **Creator**

- Created CustomDroid, a Windows app that lets you unlock the bootloader of your device & flash a custom recovery, ROM and kernel in order for you to have a “custom” Android experience. Supports Nexus devices and HTC One & WIP
- Featured on XDA-Developers
- Open Source

### **WearPIN**

#### **Creator**

- Created WearPIN, an Android Wear app that automatically changes your device PIN and sends it to your watch, for extra security
- Available on Play Store

### **ForceDoze**

#### **Creator**

- Created ForceDoze, an Android battery saving app
- 50000+ downloads
- £200+ in in-app donations
- Available on Play Store

### **TrackTrump**

#### **Creator**

- Created TrackTrump, an iOS app that tracks US President Donald Trump’s promises to the voters, to hold his administration accountable for the promises made during the campaign
- Available on the Apple AppStore

## **PROJECTS: OTHER STUFF**

### **MetroRemove**

#### **Creator**

- Wrote MetroRemove, a Windows app that lets users get rid of the Metro UI and its elements (hot corners, start button, etc) on a Windows 8+ system
- Open source

### **CPUBench**

#### **Creator**

- Wrote CPUBench, a little app for benchmarking the CPU in your system (single/multi-threaded)
- Open source

### **Tinyloader/Tinykernel**

#### **Creator**

- Wrote Tinyloader, a bare-bones bootloader in x86 ASM
- Wrote Tinykernel, a bare-bones kernel in C
- WIP & Open source

### **ADBRecoveryScreenshot**

#### **Creator**

- Wrote ADBRecoveryScreenshot, a little app that lets you take a screenshot in recovery mode

## **PROGRAMMING LANGUAGES & OTHERS**

**Programming (in order of proficiency):**

- Java
- C/C++
- .NET (Visual Basic & C#)
- HTML/jS/CSS
- Python
- Swift
- SQL
- x86 Assembly

**Other software experience:**

- Microsoft Office (Word, PowerPoint, etc)
- Adobe Photoshop & Adobe AfterEffects
- Maya & 3DS Max
- CryEngine 3
- Visual Studio
